Dear Colleague,

On behalf of the Energy, Environment and Resources Department, I am delighted to invite you to the UK launch of *Come On! Capitalism, Short-termism, Population and the Destruction of the Planet* by Anders Wijkman and Ernst von Weizsäcker, published by Springer in collaboration with the Club of Rome, which celebrates its 50th Anniversary this year.

We hope you are able to join us on Thursday, 26 April and look forward to welcoming you. Numbers are limited so please reply promptly to avoid disappointment.

Kind regards,

Catherine Hampton

As part of the 50th anniversary of the Club of Rome, this event will launch Anders Wijkman and Ernst von Weizsäcker's book Come On! Capitalism, Short-termism, Population and the Destruction of the Planet: A Report to the Club of Rome. The authors will discuss how a 'prosperous future for all' requires that economic well-being be largely decouples from the destruction of natural resources, especially in agriculture, and the pollution of the atmosphere. They will argue that this can only be achieved with a 'New Enlightenment' where a balance exists between humans and nature, between short term and long term and between public and private interests.
